(GB) Dear Customer,

As a furniture manufacturer, we would like to point out that an attachment is only as good as the connection between the attachment material (dowel) and masonry. In the case of suspension elements you should check your masonry and only use the appropriate dowels from a specialist store. Ultimately it is the person carrying out the installation who is responsible for attachment to the masonry.

The installation and laying of electrical lines and other items must only be performed by authorised specialists. Please note the descriptions and weight information in the installation instructions.

Please observe the stated maximum weights! In the case of mechanical overloads caused by playing children, other individuals, materials etc. we do not accept any liability as the manufacturer of the furniture!

The furniture is only guaranteed to work perfectly if it is set up to be plumb and horizontal. The doors have been pre-adjusted, but may need to be realigned/readjusted in accordance with local conditions!
